

# TUSHAR RAJPUT

(+91) 9654046268 | [tusharraiput953@gmail.com](mailto:tusharraiput953@gmail.com)

## EDUCATION-----

- ABES ENGINEERING COLLEGE (2021-2025)  
Information Technology ,B.Tech ,CGPA: 8.17
- JKG INTERNATIONAL SCHOOL (2021)  
XII Percentage: 95.2%
- JKG INTERNATIONAL SCHOOL (2019)  
X Percentage: 92.6%

## TECHNICAL SKILLS-----

- Programming Language
  - JAVA
  - Python (Basic)
  - C/C++ (Basic)
  - HTML
  - CSS
- Libraries/Frameworks
  - React JS
  - RESTful APIs
  - JAVASCRIPT
  - Node JS
  - Express
  - EJS
  - MongoDB
  - MySQL
- Tools/Platforms
  - Git & Git-hub
  - Terminal (Bash)

## INTERPERSONAL SKILLS-----

- Leadership skills
- Time management skills

## COURSE WORK-----

- Data Structure & Algorithms
- Computer Organization & Architecture
- Operating System
- Object Oriented Programming
- Database Management System & SQL

## HOBBY-----

- Listening music
- Badminton

## CARRIER OBJECTIVE-----

As a passionate developer with a zest for learning and utilizing new technologies, I thrive on building innovative and collaborative solutions. My commitment to teamwork & continuous improvement. I am eager to contribute to a reputable IT firm where I can expand my knowledge and skills in software engineering.

## PROJECTS-----

- [WANDERLUST PROJECT](#)  
Developed a fully functional web application, Wanderlust, using Node.js, Express.js, MongoDB, JavaScript, and Bootstrap. This project allows users to explore and manage hotel listings, akin to Airbnb. Key features include secure user authentication (sign-in, login, logout), role-based authorization (listing and review management), and an intuitive user interface. Users can create and manage hotel listings, add and view reviews with star ratings, and ensure content integrity through permission-based deletion. The platform leverages a robust technical stack and a responsive design with Bootstrap to provide a seamless and engaging user experience.
- NEWS APP  
Developed a dynamic news application using ReactJS, demonstrating advanced proficiency in front-end web development.
- [TEXT UTILITY WEBSITE](#)  
Developed a multifunctional "Text Utility Website" enables users to perform a wide variety of text-related tasks

## ACHIEVEMENTS-----

- Solved 150+ Questions on different coding platforms.

## CERTIFICATIONS-----

- Java- Infosys Springboard.
- Python- Infosys Springboard.
- SQL(Basic and Advanced)- Hackerrank
- HackerRank Problem Solving(Basics)
